METHODS_STEPS

In order for the concrete application of a method to be successful, the following five steps should always be followed; regardless of whether it is a short work segment in the virtual space or a day-long workshop event.

CHOOSE THE RIGHT METHOD

> Goal │ Participation fit │ Time-frame │ Context in the work process

EXPLAIN PROCEDURE

> What is the instruction? │ How does it work? │ What does it take? What doesn't?

CHECK UNDERSTANDING

> Does everyone understand what this is about?

RELEASE

> Distribute material │ Form small groups │ Let them work

REFLECTION

> How was it? │ What was remarkable in the process?

Facilitation
