F R I E S

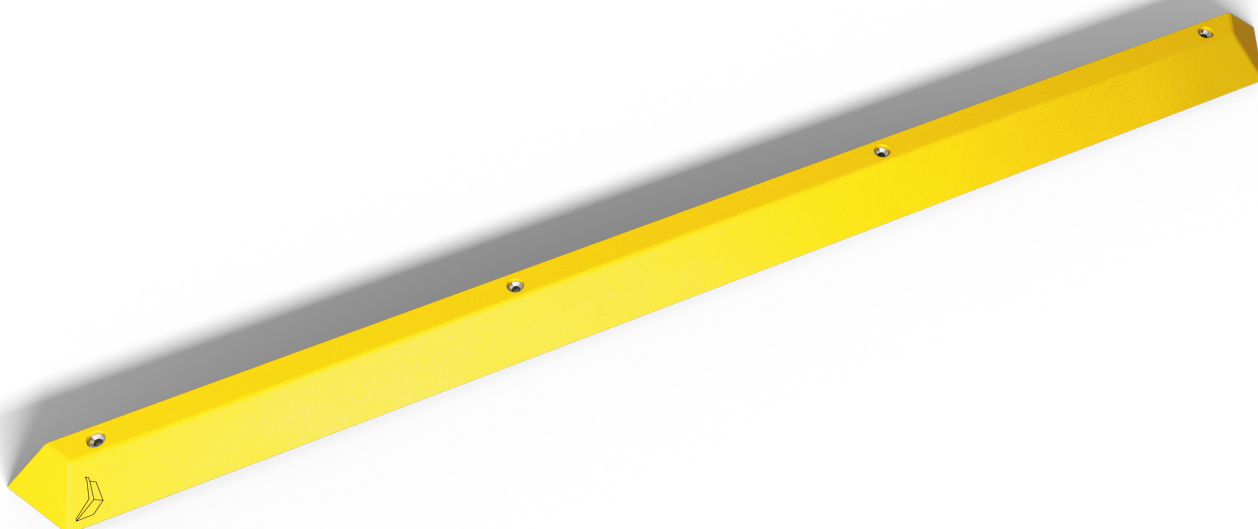

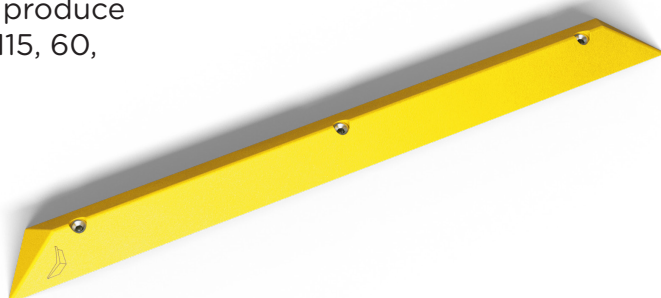

FROM LEFTOVER CUTTINGS TO FRESH FRIES!

Driven by the motivation of giving purpose to what used to be material waste, we designed a sustainable addition to your climbing wall. Have fun with them - but do not add ketchup.

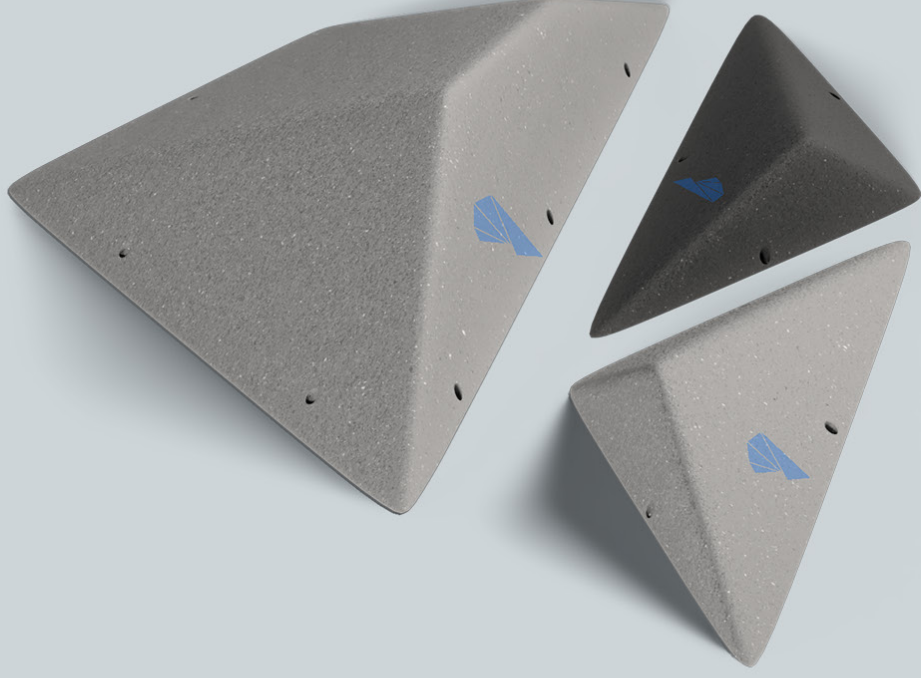

Our approach allows us to consistently produce similar forms in three distinct lengths—115, 60, and 30 cm.

Length: 30-115 cm
Height: 1,8-5,4 cm
Width: 6 cm

W O O D

Banana volumes are made with 18mm high-quality birch plywood. We use Birch because it provides the perfect balance between stability and elasticity.

T E X T U R E

We took a lot of time and effort to create our own special texture, finding the perfect sticky mixture. Our texture is made up of three rock-hard layers that are ultra-durable and can even withstand the abuse of a power washer without any effect on the texture or color. The texture is offered in all colours

C O L O R

We offer all standard RAL Colors, with all standard colors matching to the industry standards. If you want to customize your volume, having every side of the volume a different color, just contact us, we will try to make everything possible.

E A S Y T O C L E A N

Banana volumes can be cleaned with a power washer or by simply using a brush to scrub away any chalk or shoe rubber without damaging the texture.

T - N U T S

Banana volumes are available with or without T-Nuts. If you choose the T-Nut option, Banana volumes have bomber T-Nuts installed with 2 set screws.

A T T A C H E M E N T S Y S T E M

Banana volumes have a special screw inserts, providing more stability for installation screws than normal washers can do. These inserts are located all around the edge of our volumes, so that you can put the volume wherever you want to.
