

## Here Comes The Sun

It's 5 o'clock in the morning  
I woke thinking of you  
Got up out of my bed, and  
Walked on down to the shore

Now here comes the sun  
Warming me, my body, through and through  
Here comes the sun  
In a sky so blue

Here comes the sun  
Warming me, I was crazy about you  
Here comes the sun  
Feels my life's just began

*I was giving  
Now, I'm living  
I am breathing deeply now*

Seems the whole world is sleeping  
It's so peaceful right now  
Thinking how we got started  
Not dreaming our end was near

Now here comes the sun  
Warming me, my body, through and through  
Here comes the sun  
In a sky so blue

Here comes the sun  
Warming me, I was crazy about you  
Here comes the sun  
Feels my life's just began

*I was giving  
Now, I'm living  
I am breathing deeply now*

Suns upon the horizon  
Climbing up in the sky  
Helps to make me forget  
About you and I

Now here comes the sun  
Warming me, my body, through and through  
Here comes the sun  
In a sky so blue

Here comes the sun *I was giving*  
Warming me, I was crazy about you *Now I'm living*  
Here comes the sun *I am breathing deeply now*  
Feels my life's just began *Now that your gone*  
Just began
