I am afraid of Clowns, really. I do not like people being rude or judging others. Someday I am more introverted, some more extroverted, depends on how I am grounded. On bad days I watch videos on YouTube.

I want to make others feel comfortable. For my future I wish to have a good job and am successful. If I could, I would prevent hunger problems in the world.

I would love to go back to my home country England one day and to travel the world.
