

Lomi Lomi Training

with Roland and Katrin

at the "Co-Nectar" in Puntagorda / La Palma

15th - 16th February 2025

15th - 16th March 2025

You can book either one or both weekends as a course.

The current quality of time is very challenging for many beings and requires stable resilience and grounding. This retreat focuses on deep regeneration and proactively recharging your resources.

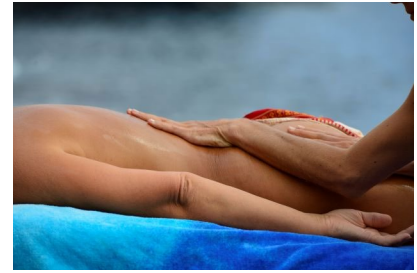

It gives you the opportunity to learn, receive and practice Hawaiian bodywork and massage in a small group.

The soft and juicy, powerful flow of the Lomi Lomi massage allows us to dive deep into ourselves and connect more deeply with the core of our true being.

Everything is „aloha“. Everything is love or the call for it.

For us, Hawaiian massage combines many variations: parasympathetic regulation, touch, sound and movement. It is a flowing, soft and deep massage technique that is like a dance on the body landscape. The music and the voice accompany this process into deep relaxation and regulation.

**Hawaiian massage is a healing ritual,
a prayer with the body
and it connects us with the intelligence of the
elements.**

This Intensive will also give you the space to let go of old patterns that no longer serve your path. We will integrate a further developed version of the Hawaiian forgiveness ritual Ho'oponopono into the process. You will be able to recognise, feel and transform stuck patterns and blockages that are waiting to be cleared in your cells so that you can be yourself again.

The beautiful nature of the island invites us to work directly in nature at places of power.

Rohland Frenzell is a passionate healing therapist, bodyworker, (couples) coach, dancer, musician and gardener and has been practicing with Lomi massage for 22 years. Since the mid-90s he has been creating liberating learning and play spaces for sensual BEing experience and collective and individual transformation and change.

His work is inspired by various artistic, therapeutic and spiritual systems, but he enjoys letting go of art constructs and concepts more and more. As a Scorpio, he loves to dance with the shadows and the guardians at the boundaries and the gateways to new dimensions.

Katrin Lerche has been practising Lomi temple massage for around 13 years. She is a trained singer and voice teacher, dancer and has been at home in bodywork for many years. She learnt the Lomi massage mainly from Kabiro and Roland. She loves Hawaiian massage because it combines dance, music and the shamanic-healing aspect. For many years, she has accompanied people on their path to voice development, liberation and transformation through massage, dance and other techniques.
