Method:

1. The top corners of the bag unit have 2 holes on each side.
2. Make sure the bag at the back of the QES is straight and flush with the frame, take a m8 drill and drill through the bag's canvas.
3. Do not drill through the aluminium.
4. This is just to pierce the bag to get the bolts through.
5. Take 4 m8 bolts and washers put them through these holes.
6. Line these bolts up with the holes in the bracket and push them through take 4 m8 lock nuts and tighten the bolts and nuts.
7. When the Quick En Suite is opened, adjust the curtain by loosening or tightening the webbing that goes through the arms.
8. Ideally the curtain must be 100mm from the ground.
9. Then take a warm blade and melt the excess webbing shorter.
