

## Silence In The City

All those streets once pulsed with life  
We're not meant to fall  
It was made to last they said  
Now there's nothing left at all

They had no time to run away  
Were caught in quick surprise  
The only time when everyone  
Was equal in somebody's eyes

Silence in the city no-ones home  
They dreamed of a better day  
It finally came another way  
Silence in the city all alone  
They made it to a brighter place  
Very far away

They all knew that no-ones lives forever  
Yet they always failed to see  
They tried to live they tried to love  
They tried too hard  
When it came to pass, they disbelieved

So, they lived in ignorance  
So blind to the signs  
And they worried on  
Worried 'bout the little things  
Soon to find they never meant a thing

Silence in the city no-one's home  
They dreamed of a better day  
It finally came another way  
Silence in the city all alone  
They made it to a brighter place  
Very far away

Silence in the city no-on's home  
They dreamed of a better day

It finally came another way  
Silence in the city all alone  
They made it to a brighter place  
Very far away

Silence in the city no-one's home  
They dreamed of a better day  
It finally came another way  
Silence in the city all alone  
They made it to a brighter place  
Very far away

*Hand in hand*  
*They made their stand*
