

Is A Wonder

In the morning of my life
Days were easy and free
Now something in my soul is cryin'
Like a thunder

But every time when I'm down
I start again to believe
And through my faith I know for sure
There'll be a wonder

Where are the people's feelings gone
And the human touch

All we gonna need is a wonder
So let it out and let it in
All we gonna need is a wonder
So let it out, oh yeah
Let it in, let it in

Everybody has to fight
Doesn't matter where they are
For their freedom and their rights
Is it a wonder?

And I can't change the world alone
We could do it Together

All we gonna need is a wonder
So let it out and let it in
All we gonna need is a wonder
So let it out, oh yeah
Let it in, let it in

All we gonna need is a wonder
So let it out, oh yeah
Let it in, let it in
