

One More Time

Look at you baby
What do I see
You're ready to walk away
One more time

What are we doin'
Are we out of our minds
Ready to say goodbye
One more time

One in a million
One so hard to find

One more time
One more time
One more time

I'm looking for reason
You're looking for rhyme
Over and over, again
One more time

I know it ain't easy
For two of a kind
So why don't you spend the night
One more time

One in a million
One so hard to find

One more time
One more time
One more time

Girl let it all go
Let it all shine

One more time
Do you wanna know the answer
One more time
Do you wanna get it right
One more time
I wanna be your privat dancer
One more time
I wanna love you one more time

One more time
Do you wanna know the answer
One more time
Do you wanna get it right
One more time
I wanna be your privat dancer
One more time
I wanna love you one more time
One more time
