Language of Miracles, Level 2:  
Intermediate/Advanced Animal Communication  
with Amelia Kinkade

Weekend Seminar

31. May.- 02. June 2025

at the Black Forest sanctuary „Allerheiligen“

This seminar is for returning students only who have taken one of more weekend seminars with Amelia or studied in her online webinars and want to further their understanding and analysis of the animals they love. **In this more advanced course for returning students only, Amelia will hone your skills in attaining more detail in your conversations with animals.**

More attention will be put on how your own behavior and emotional patterns effect your animals, and an in depth study of the Body Scan (Medical Gestalt), will help you discover if the animals you love are in pain. A special focus will be on finding your spiritual “Still-point” so that you can locate and employ your intuition consistently and build on the meditation skills required in learning to silence your mind so completely that you can receive the thoughts and feelings of animals. More attention will be devoted to mediumship in this advanced weekend, so that you can contact not only animals in Heaven, but the humans who are enjoying these animals on the Other Side, too!

**“I’m going to do everything in my power to help you understand how the latest most breath-taking discoveries in science and spirituality will help us champion the lives of animals and inspire positive change in humans, too.”**

Amelia Kinkade

In *The Language of Miracles Training, Level 2*, Amelia will share techniques, tools, and exercises for *developing your ability to communicate with animals and help heal animals*; but more exciting still, she will help you *explore how your animals and your love for animals actually heals YOU!*

## She will explain:

- ✓ *Why animals are already masters at intuitive and inter-species communication*
- ✓ *Why human intuitive ability has been suppressed and repressed by modern culture*
- ✓ *Proof that the ability to talk to animals is not a gift possessed by a few special people*
- ✓ *Transforming intuition from an unconscious and uncontrolled act to a well-honed skill*
- ✓ *Practical applications such as quality of life issues surrounding animal companions*
- ✓ *Ways to enhance training, improve animal relationships, and solve behaviour problems*
- ✓ *New insights into how animals mirror your hidden emotional problems*
- ✓ *New methods in healing yourself so that your animals do not share your conscious or unconscious problems*
- ✓ *Restoration of right relations between humans and other species without negative mirroring*
- ✓ *How your sacred love for animals can actually heal YOU.*

With the correct dedication, **Amelia's mission is to show that everyone can do what she does with the proper dedication, training, and understanding.**

In *The Language of Miracles Training Level 2*, she sets out demonstrate the mechanics of how these processes work and how we all can learn to talk with animals.

**Her end goal is to reveal to those who haven't discovered it yet the dazzlingly deep and powerful emotional world of animals.**

Amelia says:

**"It has been my experience that their scope is sometimes larger than that of humans not only in terms of their spontaneity, loyalty, ferocity, grace, and unprecedented powers of forgiveness, but I've found that they are also privy to transcendental states of consciousness and more miraculous states of deep healing not accessible to most humans."**

Exploring the subtle cues that form the foundation of animal communication, Kinkade shows, in carefully constructed guided exercises, how her students can explore these cues for themselves. With gentle encouragement, **she will share the secrets** that have inspired thousands of people she has taught throughout the world.

**The Language of Miracles Training will inspire students to sit down with the animals in their lives and explore the unspoken world between them.**

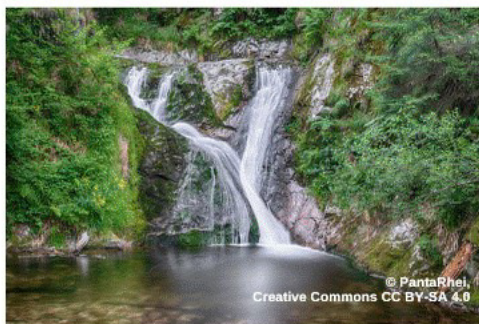

# Amelia Kinkade has chosen a very special location for this exclusive seminar: „Allerheiligen“

"Allerheiligen" has long been a focal point of spiritual and cultural history.

A visit to the monastery ruins and the legendary waterfalls immediately makes it clear that this little corner of the world was not consecrated to all saints for nothing. Even before the monastery was founded, "Allerheiligen" seems to have been a place of mystery. According to legend, this place was chosen by a donkey who was sent off with a sack of gold to drop the treasure where a new monastery was to be built.

The unspoilt mixed mountain forest in the gorge around the waterfalls is a special wilderness place where you can recharge your batteries and come to your senses. Even Mark Twain is said to have stopped and enjoyed here on his way through.
