Family Sand Beach in Cala Blava

In 5 walking minutes distance you reach a beautiful sandy beach with almost only locals. The beach is also ideal for children, as the water is calm and clear and you can always keep an eye on the little ones.

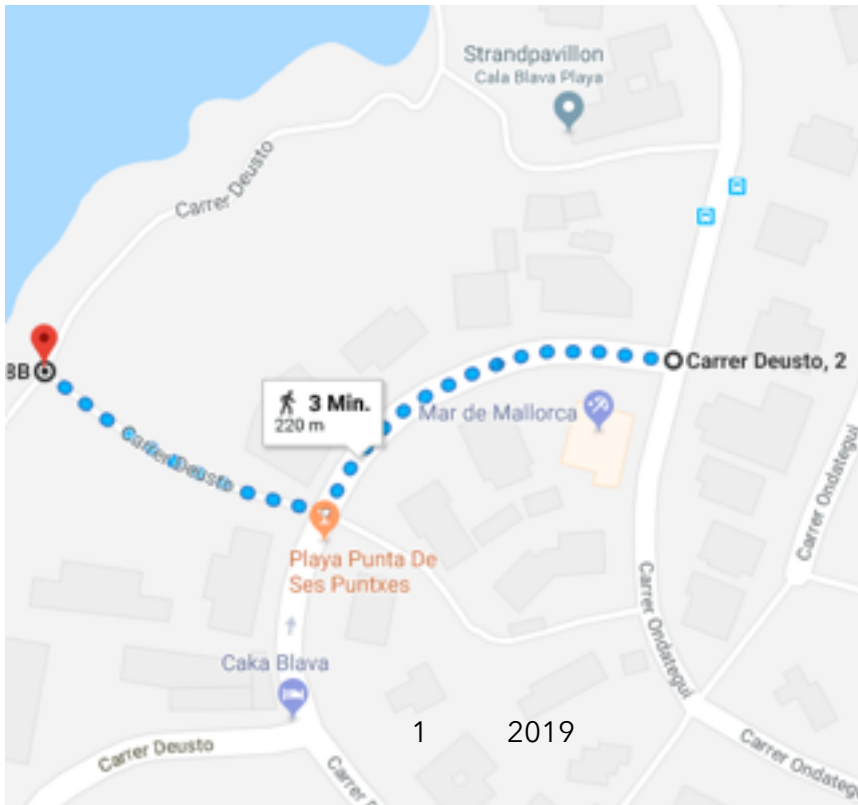

Casa Pura - Beaches

In only 2 walking minutes you reach a small bay with deep blue water and cozy lying areas. From the terrace of Casa Pura you have a direct view down to this bay.

If you turn right when leaving the house, you reach within 3 walking minutes another bay which is really nice for taking a swim. It's also the ideal start to a relaxed tour on the water with stand-up paddle boards. Best in the morning, when the water is still calm and no winds are blowing.

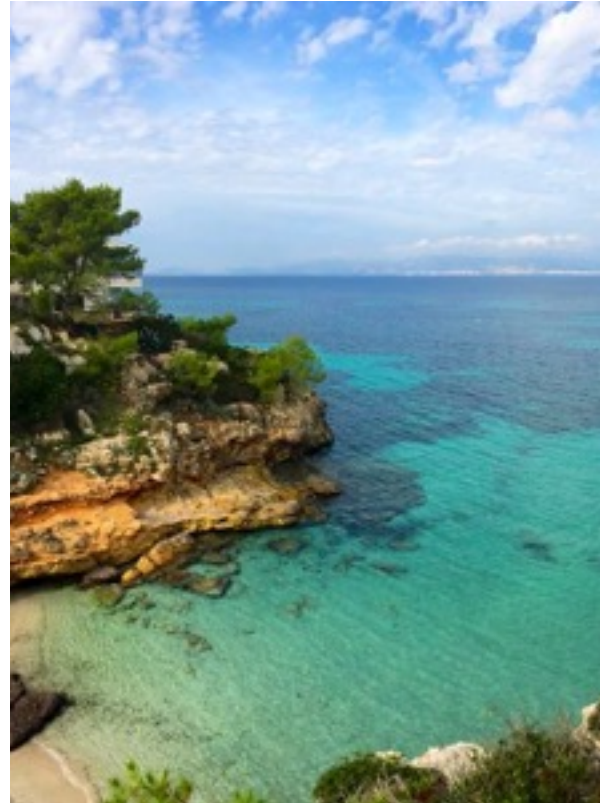

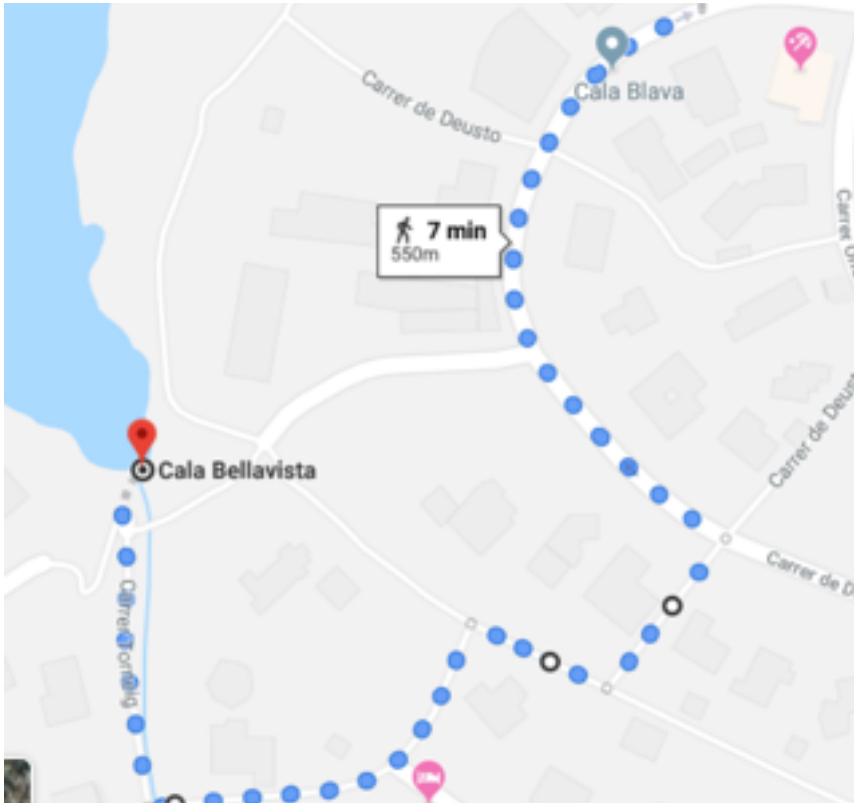

Boards can be rented for 100 € per board and week

Another nice small sand beach (great with little kids) is about 10 min walking away. It has very blue water and is well worth the walk. There are shorter ways to it, but this one is the easiest to walk:

Casa Pura - Hike to a Beach

Do you want to discover a small beach where most likely nobody else will be? Then get your walking shoes ready, pack water, snack and in spring time a jacket against the wind and start a wonderful walk to a hidden secret beach (Cala Vella). The walk along the coastline is by itself already worth all your efforts. Count with approx. 1:15 h walk per direction. The ideal guide is the Komoot App, which can be downloaded for your Smartphone. You find the tour track under this link: <https://www.komoot.de/tour/89411987?ref=wtd-m>
