

Greetings from Hokkaido University Africa Office in Lusaka and Nairobi Branch. We are here for you to deliver the information on Japanese universities.

Study in Japan Online Fair for Sub-Saharan Africa 2022

Undergraduate Programs

3rd SEP

Time

11:00-14:00 CAT, UTC+2

Venue

<https://2022undergraduate.studyin-japan-africa-portal.com/>

【Event】 Get the best deals at “Study in Japan Fair” website!

We, Study in Japan Global Network Project, are hosting an online event for the sub-Saharan Africa region: on 3 September 2022, for prospective undergraduate students, and on 30 September - 1 October 2022, for prospective graduate students. Anyone interested in studying at a Japanese university or a graduate school is most welcome to join us (free of charge). 68 programs from 33 Japanese universities are waiting for you.

Please take this opportunity to register from [here](#).

The first half of the fair is "General Information Session" and the second half, "University Consultation Session". "General Information Session" will include presentations on the overview of studying in Japan, points to consider when applying for scholarships, career paths after graduation, and experiences of current students or alumni from sub-Saharan Africa. "University Consultation Session" will give you an opportunity to meet faculty members and/or administrative staff of each programme of various Japanese universities and ask directly your questions.

Please note that all sessions need to be booked separately once you register for the fair. Japanese universities are eager to have talented African students. We hope this fair will help you apply for Japanese universities with a clear image. In the future, we wish your experience of studying in Japan would contribute to the development of Africa - your "Mother Land".

Integrated Science Program

【Course Info】 ISP at HOKKAIDO UNIVERSITY

1. Course name | Degree title:

Integrated Science Program (ISP) | Bachelor's Degree (Science) and Master's Degree (In your chosen specialized field)

2. Application period:

Online registration period: 15 – 30 Nov. 2022 for Oct. 2023 enrollment

The required application materials must be also sent by postal mail to arrive no later than 16 Dec. 2022.

3. Course details:

The Integrated Science Program is a cross-disciplinary science program for international students interested in pursuing a degree in the sciences at the undergraduate and graduate level. The program's strong cross-disciplinary nature aims to give students an excellent broad scientific education across the core scientific disciplines (physics, chemistry, and biology), while allowing them to specialize in their chosen fields in later years in accordance with their own interests. In addition to the English-based scientific content of the program, a multitude of additional liberal arts courses focusing on business, leadership and management skills, and the Japanese language will be available to ensure students receive a rich and fulfilling education while at Hokkaido University.

Visit the program's [website](#) and watch the students' [video](#).

【Course Info】 ISSE and GLA at RITSUMEIKAN UNIVERSITY

1. Course name | Degree title:

Information Systems Science and Engineering Course (**ISSE**) at the College of Information Science and Engineering | Bachelor of Engineering

Dual Degree Program with the Australian National University at the College of Global Liberal Arts (**GLA**) | Bachelor of Global Liberal Arts from Ritsumeikan University, Bachelor of Asia Pacific Affairs from the Australian National University

2. Application periods:

For Apr. 2023 enrollment for ISSE, 24 Aug.– 13 Sep. 2022 / 5 – 25 Oct. 2022

For Apr. 2023 enrollment for GLA, 24 Aug. – 13 Sep. 2022

For Sep. 2023 enrollment for GLA, 5 – 25 Oct. 2022 / 7 Dec. 2022 – 10 Jan. 2023 | 15 Feb. – 7 Mar. 2023

3. Course details:

[Information Systems Science and Engineering Course, College of Information Science and Engineering \(ISSE\)](#) : April Enrollment Only

The College of Information Science and Engineering is the largest ICT college in Japan that provides education in the main academic fields of computer science. Students in the ISSE course develop the information systems engineering skills necessary to work anywhere in the world. The program lays a foundation in the basics of engineering and the technical competency to work flexibly with continually evolving hardware, software, and user needs.

[Dual Degree Program with the Australian National University at the College of Global Liberal Arts \(GLA\)](#) : April & September Enrollment

This undergraduate dual degree program is offered jointly by the College of Global Liberal Arts at Ritsumeikan University and the College of Asia & the Pacific (CAP) at the Australian National University. The students study in 3 years in Japan and 1 year in Australia, and will be awarded two degrees in four years, a Bachelor of Global Liberal Arts and a Bachelor of Asia-Pacific Affairs.

Want to know more about the programs ? Come and visit their virtual booth in the above Study in Japan Online Fair on 3 Sep.

Want to be updated? [Sign-up for their newsletters.](#)

World-changing.

APU, education for progress.

【Course Info】 ST at RITSUMEIKAN ASIA PACIFIC UNIVERSITY (APU)

1. Course name | Degree title:

College of Sustainability and Tourism (ST) *TENTATIVE | Bachelor of Sustainability and Tourism

2. Application periods:

Information on the application date will be announced at a later date on [the APU admissions](#) page.

3. Course details:

In ST, you will study the formation of sustainable societies through environmental resource management and sustainable tourism. One of the few university programs of its kind, we help students to become scholar-practitioners, who employ innovative research to solve real-world issues. The faculty members are specialists in environment, development, tourism, entrepreneurship, and ICT, and are active on the global stage through contributions to academic journals and international organizations. They also serve policy committees in the national and local governments in Japan.

ST supports students in becoming individuals who discover local resources found in nature, history, and culture, with the goal to protect and develop these into a tourism source to contribute to regional development amidst globalization.

It would be a brand new college for APU. Just find out more from [here](#).

【Notice】 Request us to arrange a webinar for you.

We, Study in Japan Global Network Project, are more than happy to assist you to reach out study in Japan opportunities. If you want us to have a webinar or a seminar for your high school students or consultation with a career counselor at your school, kindly just let us know. (If you are a student, please inform your school to contact us.) We can also invite your choice program/university in Japan to join the webinar to talk the details on curriculum, application procedure and scholarship scheme.

Since 2014, [Study in Japan Global Network Project for Sub-Saharan Africa](#) has been implemented by [Hokkaido University](#), commissioned by the Ministry of Education, Culture, Sports, Science and Technology (MEXT-Japan). This project, shortly called "Study in Japan for Africa," is a gateway to all universities in Japan, without having to search and look into every university on your own.
