Dieser Klettergarten ist bei einigen noch unter dem Namen „Franchi“ bekannt. Scheweg zählt zu jenen Felsen in der Umgebung, die eine besonders hohe Anzahl an schweren Routen aufweisen. Sie bestehen meist aus Varianten oder Verbindungen mehrerer Routen. Die großen Überhänge schützen vor Regen und somit kann hier auch an Regentagen im Trockenen geklettert werden.

Anfahrt: In Toblach die Straße nach Cortina nehmen. Nach mehreren Kilometern erreicht man auf der rechten Straßenseite das Hotel Drei Zinnen. Gegenüber dem Hotel befindet sich ein großer Parkplatz (kostenpflichtig), wo man das Auto abstellen kann.

Zustieg: Die Straße überqueren, über die Brücke und sofort danach rechts auf den Weg Nr. 34 abzweigen. Dieser führt in 3 Minuten zum Klettergarten.

■ Questa falesia è meglio conosciuta sotto il nome "Franchi". Tra le falesie del circondario, Schweg conta un numero di vie difficili particolarmente alto: si tratta spesso di varianti o congiunzioni di più vie. Gli strapiombi proteggono la falesia dalla pioggia, permettendo di scalare all'asciutto anche durante giornate piovose.

■ **Come arrivare:** da Dobbiaco procedere verso Cortina. Dopo alcuni chilometri si incontra sulla destra l'Hotel Tre Cime. Di fronte a questo c'è un grande parcheggio (a pagamento), dove si può lasciare la macchina.

■ **Accesso:** attraversare la strada e il ponte e subito dopo svoltare a destra e seguire il sentiero n. 34. In circa 3 minuti di cammino si arriverà alla falesia.

■ Scheweg is also known as „Franchi“ among climbers. Scheweg is certainly one of the crags with a rather high number of harder routes. The routes mainly consist of variations and combinations of several routes. The big overhangs offer shelter from rain and hence it is possible to climb here during rainy days.

■ **Arrival:** In Toblach/Dobbiaco take the road in the direction of Cortina. After a while, the Hotel Drei Zinnen appears on the right side. Across the hotel there is a large parking (chargeable) lot where it is possible to leave the car.

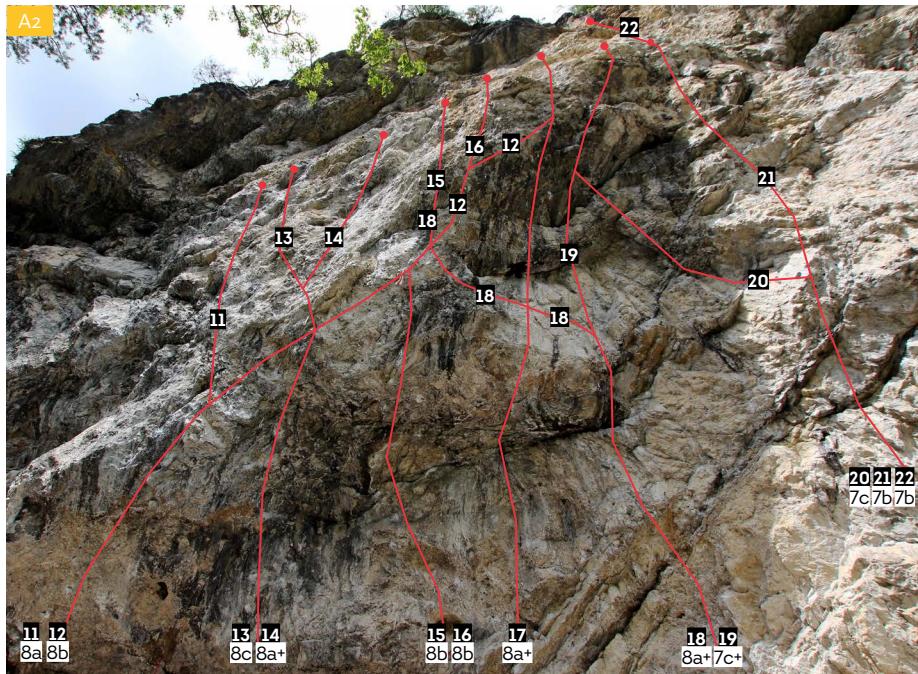

■ **Approach:** Cross the street, walk across the bridge and turn right onto trail no. 34. Staying on this trail, you reach the wall in 3 minutes.
