WOODCESSORIES IS COVERED BY TOP PRESS & MEDIA

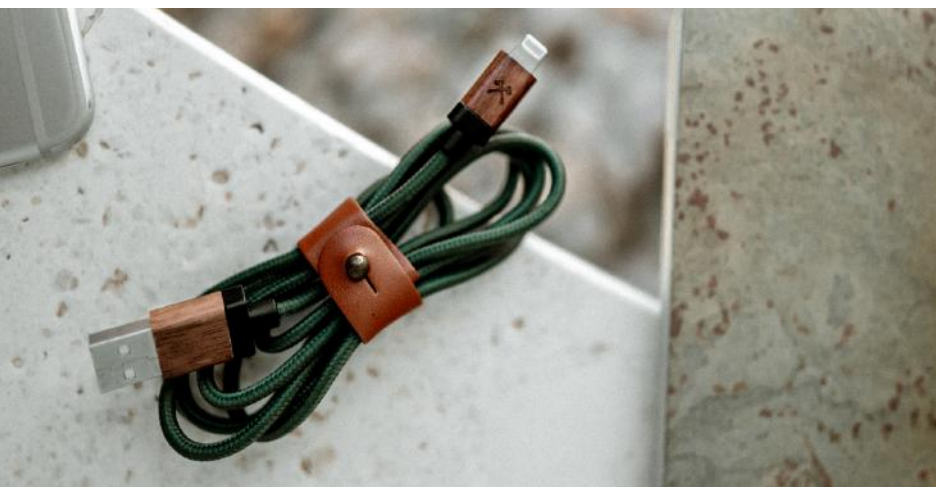

SOCIAL MEDIA

The number of followers on our social media channels increases every day and we are grateful for each and everyone. Social Media is a very efficient way of spreading the word and vision of Woodcessories. It also allows us to interact and get feedback from our community. We try to take every word into consideration in our strive for constant improvement.

FOLLOW THE MOVEMENT

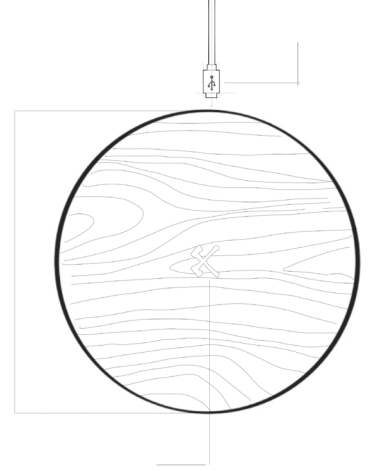

@WOODCESSORIES

CREATED TO SUSTAIN.

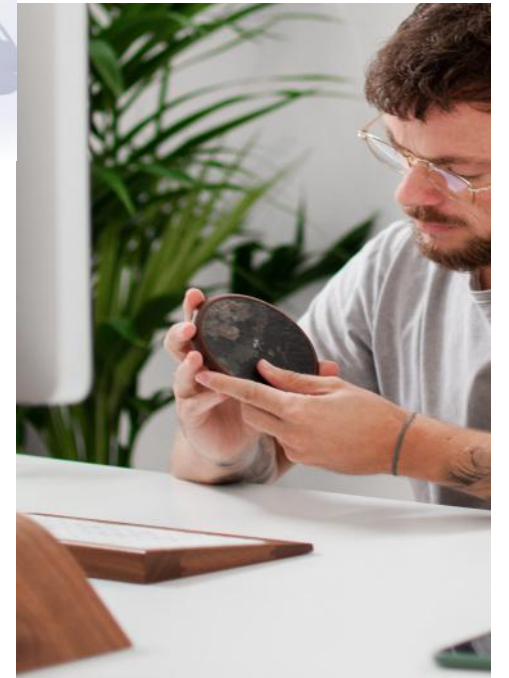

GERMAN ENGINEERING MEETS HANDMADE MATERIALS

We always wanted to create an inimitable connection between technology and nature. Inspired by the aesthetics of Apple products, we were seeking for cases and accessories that would underline an intuitional usability & minimalistic design.

DESIGNED IN GERMANY.
MADE TO LAST.

We seek to offer handmade companions that run through our own hands & are a representation of who we are.

HIGH END & ECO FRIENDLY PACKAGING

DEDICATED TO SUSTAINABILITY

GREEN CONCEPT

All of our packaging materials are 100% recyclable and consists of 99% recycled waste paper. Our packaging helps to fight the rise against plastic consumption & supports a plastic free world. Still they represent our vision of a minimalistic premium design.

OUR MISSION: 100% PLASTIC FREE BY 2020!

Buy One
Woodcessories.
Plant One
Tree!

OVER 100.000 TREES PLANTED! FOR THE LOVE OF NATURE

*We are proud to announce
our partnership with
Trees for the Future.
It allows us to donate
a tree in Kenya and Tanzania for
every sold Woodcessories piece!
Our focus is not just on
planting trees,
but helping change lives
by providing
a substantial oxygen supply
& directly benefiting
local communities
devastated by deforestation
and unproductive
farming conditions.*

TREES for
the
FUTURE
PLANT TREES. CHANGE LIVES.
