

How to Cloud – Rules of handling Schul.cloud

In collaboration with the teachers' conference and the parents' council of our school, the school board has set the following rules for communication via our "Schul.cloud":

1. The school community's main channel for communication is the "Schulcloud".
Here all important information concerning everyday issues of our school are being communicated.
2. We limit these notifications to the essentials.
3. We pay attention to polite communication.
4. Note of sickness will be send to the class's teacher in a personal chat and by calling the school's office.
5. Inquiries about homework may be send to fellow students. However teachers communicate homework during lessons, not via "Schulcloud".
6. We understand that messages cannot be answered immediately.
We intend to answer any inquiry within two days.
7. During weekends and when being sick everybody may have a break from "Schulcloud".
8. We delete any attached files we have send via „Schulcloud“ on our own.
