

POWERVS2000

Try IBM Power Virtual Server For Free

Potential new IBM Power Virtual Server (PowerVS) clients receive \$2,000 Cloud credits, allowing them to try PowerVS for up to three months at no cost.

IBM Power Virtual Server is an IBM infrastructure as a service offering that allows businesses to extend their on-premises environments to the cloud, modernizing hybrid cloud infrastructures and improving workload management. It reduces capital expenditure, leading to cost savings and operational efficiency, while providing an easy path to move SAP, Oracle, and IBM i workloads to the cloud for a seamless hybrid cloud strategy.

PowerVS Quickstart

Provides pre-configured virtual server instances, available in the IBM Cloud Catalog represented as t-shirt sizes, for all operating systems supported by PowerVS in eligible datacenters.

- Automated deployment of virtual servers
- Easily provision in less than 20 minutes
- Various preconfigured options available
- Guided Tour available to help get started

\$2,000 credits

- Free trial with self-service onboarding
- Includes initial setup of client to site VPN connectivity
- Up to three months at no cost based on XS t-shirts. Duration of credit varies based on t-shirt sizes.
- Credits expire after 90 days

Why IBM Power Virtual Server

No re-platforming:
Architecturally consistent
compute, storage, and IO

Highly reliable infrastructure
with leading business
continuity and disaster
recovery

Automated Backup as a Service for
AIX / Linux with Secure Automated
Backup with Compass by Cobalt
Iron and Virtual Tape Library for IBM
i backup enhances data protection

Superior IBM Power
security and
comprehensive Cloud
compliance

Flexible consumption; fully owned and operated
by IBM delivering industry leading SLAs

Interested in POWERVS2000?
It's easy to get started.

Confirm your client has an IBM Cloud account. They can create one [here](#).
