

Cold As Ice

Who moved in between us
Who took the place from me
Like I've been living with a stranger
And I just couldn't see

I don't want your pity
It's better if you don't stay
Don't think I'll try to stop you
My pride is getting in the way

Cold as ice
Oh, that's what you are
When I'm trying so hard to live my life
Doesn't matter whatever
I do, I do, I did it all
I freeze whenever I'm near you

Cold as ice
Oh, that's what you are
You don't care if I'm near or afar
No matter whatever I do for you
You complain and blame me that's the truth

I've been looking for the sunshine
Get me out of the ice time
I've been freezing it's a shame
Cold as ice

Now I've got to let you go
The place I don't wanna know
I freeze soon as you near you
It's for good now get that clear

I'm up keep coming down
Whenever you're around
One thing I must say
My pride got in the way

Cold as ice
Oh, that's what you are
When I'm trying so hard to live my life
Doesn't matter whatever
I do, I do, I did it all
I freeze whenever I'm near you

Cold as ice
Oh, that's what you are
You don't care if I'm near or afar
No matter whatever I do for you
You complain and blame me that's the truth

I've been looking for the sunshine
Get me out of the ice time
I've been freezing it's a shame
Cold as ice

Get me out of the ice time
I've been freezing it's a shame
Cold as ice

Get me out of the ice time
I've been freezing it's a shame
Cold as ice
